## An Introduction to Safeguarding and Protecting Children and Young People in Sport

This course is aimed at anyone who comes into contact with children through their involvement in sport. It provides an introduction to Child Protection and Safeguarding, roles and responsibilities, responding appropriately, recording and reporting concerns and safer working practice.

Our trainers are well qualified with extensive experience in delivering Child Protection training. The workshop is in line with “Working Together to Safeguard Children” (March 2010) and recommendations by the Local Safeguarding Children Boards. (LSCB’s)
